

PRASHANT PATIL

DevOps Engineer | AWS | Kubernetes | Terraform | CI/CD

Pune, India | +91 93730 34327 | prashant.patil25@outlook.com | linkedin.com/in/prashant-patil-189990202 | github.com/oneupon2

PROFESSIONAL SUMMARY

DevOps Engineer with 3+ years of fintech experience at Nasdaq, building CI/CD pipelines, automating infrastructure with Terraform, and running containerized, cloud-native workloads on AWS and Kubernetes. Migrated 10+ environments from OCI-Exadata to AWS and resolved critical production issues for global banking clients through root cause analysis. Certified Kubernetes and Cloud Native Associate (KCNA), with Professional-level certification in the Nasdaq AxiomSL regulatory reporting platform.

SKILLS

Cloud (AWS): Amazon Web Services (AWS): EC2, ECS, Lambda, Auto Scaling, S3, RDS, DynamoDB, IAM, CloudWatch, IMDS; Oracle Cloud (OCI) Exadata; Cloud Migration

Containers: Docker, Kubernetes

CI/CD & IaC: CI/CD Pipelines, Git, Jenkins, GitLab CI/CD, GitHub Actions, Terraform, Infrastructure as Code (IaC)

Monitoring & Observability: Datadog, Splunk, Grafana, Amazon CloudWatch, Logging, Alerting, Troubleshooting, Root Cause Analysis (RCA)

Scripting & OS: Python, Bash, Linux

Databases: PostgreSQL, Oracle, Amazon RDS, DynamoDB

Tools: Jira, Confluence, ServiceNow, Salesforce

Domain: Fintech, Regulatory Reporting (Nasdaq AxiomSL)

WORK EXPERIENCE

DevOps Engineer | Nasdaq | Pune, India | Aug 2023 - Present

- Migrated **10+ environments** from OCI-Exadata to AWS in the **AWS@Exadata cloud migration**, coordinating cutover activities across teams to minimize downtime and ensure business continuity.
- Found the root cause of a **critical Oracle wallet compatibility failure** (outdated Oracle client libraries could not parse the modern Exadata wallet format); resolved it with a legacy **-compat_v11** wallet instead of a risky library upgrade, keeping the customer migration cluster available.
- Resolved S3 connectivity failures for **two major international banking clients** after the S3 utility moved from **AWS SDK v1 to v2**, diagnosing missing HTTP/HTTPS proxy settings behind corporate proxies and fixing them on live client calls.
- Resolved workflow failures caused by **AWS Instance Metadata Service (IMDS)** request throttling, monitoring the **ENALinkLocalAllowanceExceeded** metric and increasing timeout parameters in **Amazon ECS**.
- Automated provisioning and configuration of AWS resources with **Terraform (Infrastructure as Code)**, replacing manual setup and improving platform stability and release velocity.
- Deployed containerized, cloud-native applications with **Docker and Kubernetes**, standardizing builds across dev, test, and production and improving high availability and fault tolerance.
- Administered **AWS** infrastructure (EC2, ECS, S3, RDS, DynamoDB, IAM, CloudWatch) supporting **CI/CD pipelines** and production monitoring; maintained CI/CD runbooks in Confluence.

Cloud Intern | Adenza (now part of Nasdaq) | Pune, India | Jan 2023 - Aug 2023

- Automated deployments and environment provisioning with **Jenkins**, streamlining CI/CD build and release processes for client environments.
- Monitored system performance and infrastructure health with **Datadog, Splunk, and Grafana**, improving observability and troubleshooting.
- Managed and optimized **PostgreSQL and Oracle** databases, ensuring data integrity and performance.
- Resolved client issues through Jira, Salesforce, and ServiceNow, improving client satisfaction and operational efficiency.

CERTIFICATIONS

Verify all credentials: [LinkedIn > Licenses & certifications](#)

- HashiCorp Certified: Terraform Associate** | HashiCorp (In Progress)
- Kubernetes and Cloud Native Associate (KCNA)** | Linux Foundation | ID LF-su9cdfcz4e (Oct 2026)
- Nasdaq AxiomSL Technical Certification - Professional** | Nasdaq (Sep 2026)
- Nasdaq AxiomSL Technical Certification - Associate** | Nasdaq (Mar 2025)

PROJECTS

JPMorgan Chase Software Engineering Job Simulation | Forage | Jan 2026

- Completed practical tasks in project setup, **Kafka** integration, **H2** database integration, and **REST API** integration and controllers.

EDUCATION

Master of Science (M.Sc.) in Computer Science | MIT World Peace University, Pune | July 2023 | 92%

Bachelor of Science (B.Sc.) in Computer Science | MIT World Peace University, Pune | June 2021 | 87%
